

Spatio-temporal orientation of microtubules controls conical cell shape in *Arabidopsis thaliana* petals

Huibo Ren, Xie Dang, Xianzhi Cai, Peihang Yu, Yajun Li, Shanshan Zhang, Menghong Liu, Binqing Chen, Deshu Lin

Live confocal imaging of petal conical cells in *Arabidopsis thaliana*.

Image Credit: The image shows well-ordered microtubule arrays in conical cells expressing *GFP-Tubulin6*, and the side visualization of conical cells from the propidium iodide-stained petals. Deshu Lin, Fujian Agriculture and Forestry University.
