## **Drosophila species learn dialects through communal living**

Balint Z. Kacsoh, Julianna Bozler, Giovanni Bosco

## **Fruit flies trigger oocyte apoptosis after exposure to predatory wasp.**

Image Credit: A light microscope image of dissected *Drosophila* ovary where DNA (white) reveals perfectly round nurse and follicle cell nuclei of intact egg chambers in addition to bright-staining, condensed fragmented DNA from apoptotic nurse cells expressing activated caspases (red).

Balint Z. Kacsoh, Geisel School of Medicine at Dartmouth.
